WHEAT OPENED STRONG, CLOSING HIGHER

In Corn Trade Was Scattered and in Small Lats-Provisions Were Regulated More Largely than Usual by the Grain Markets.

Cmcago, Oct 12 - The silver fight in the senate demoralized business on the Board of Trade today. Little was done and price changes were not important.

Wheat at the opening was about the same ts yesterday's closing to be lower, rallied Mge, then declined Me, ruled firmer and prices advanced 15e, eased off and the closing was about be higher than yesterday Early in the session there was a rumor that the senate had adjourned without taking action on the silver bill and this caused a temporary weakness. At the decline there was some buying for December and Maychiefly December-by two prominent firms, which, it was thought, were against sales made of eash wheat.

There was quite a little long wheat let go of around 66c for December, but the demand was sufficient to absorb the offerings without causing further decime, and later a slight rally occurred. It was rumored that several cargoes of the lower grades had been sold late yesterday and today for shipment. It was even summored that some contract wheat had been injured by the exporters. In corn trade was scattered in small lots. Opening transactions were at about yesterday's final quotations, and after ruling steady for a while, declined from 1gc to 3gc, railled again, changed but little, and closed

with a slight cain.
Outs declined from 14c to 34c, the near futures being the weakest, but railied from 14c to 14c and closed quiet. The depression was due to sympathy with corn and also to mod-erate offerings by shipping houses. Provisions were regulated more largely than usual by the grain markets and outside in-fluences. Prices at the opening were higher because the hogs, estimated at 24,000 head, were posted at 17,000 head. The trade hesi-tated when the grain markets broke down on adverse Washington news, and when this was contradicted, prices of products made a bound. The business was not important on the advance, the logs being estimated very light, at 16,000 head for tomorrow, helping the advance. It was claimed packers were rebuying stuff sold short in anticipation of more hops. Compared with last night's prices, prices are from 73sc to 27c higher, the greatest advance being in January pork. There was a fair demand for vessel room and offerings moderate at 2c for wheat and 154c for corn to Buffaio.
Estimated receipts for tomorrow: Wheat, 190 cars; corn, 650 cars; oats, 330 cars; hogs,

The leading futures ranged as follows:

Review of the Iron Trade. CLEVELAND. Oct. 12.—The Iron Trade Review this week says: The Iron trade has put in another unsatisfactory week, with little to break the monotony of weak prices and shrunkin demand. The Pittsburg dis-irict has furnished some further resumptions

in the past week, including the Apello Steet mills, and the Ulation mill, at which from is purfidled at \$4, and both illustrate the weakening hold of unionism upon the mills. It is evident that there will be little \$5 pudding in western mills the coming year. Some of the scattering milts that signed the scale some weeks ago more find themselves without orders, underbidden by meannion establishments in Pittsburg and further cast. Plutsburg mills continue to be heard from in eastern markets, taking orders at figures quite below regular rates. Tournage is still unsatisfactory. Some straggling orders are noted and reports are current that \$19 at mills has been cut by some producers. The raw from market is without incident.

Minneapolis Wheat Market.

Minneapolis Oct. 12.—This morning there was a little local strength at the opening, chiefly because of the fear of some of the short sellers as to their position. There were a few outside orders to buy small lots, which added to the apparent strength. These orders being filled the market immediately became weak and speculation slow. Elevators, as sellers, were absent: they were active buyers of cash wheat, but it was presumed on all hands that they were simply buying in order to fill their sales of yesterday and the day previous for delivery at Bulfalo and New York. Clearances from the seaboard were very light. December opened at 60½c, being the same as yesterday, and advanced to 61c at the close. May opened at 67½c, the same as yesterday, declined to 67¼c and closed at 67½c. The cash market was quite active with a good demand from elevator companies and local millers at about yesterday's range of prices. No.1 northern sold at 60½c to 61c and No. 2 at from 58½c to 59c. Receipts, 449 curs; shipments, 46 curs.

Flour was dull again today, the mills not grinding at full capacity, the amount of flour turned out amounting only to some 30,000 bbis, for the last twenty-four hours. The cause of the small output was the small demand at paying bids. Shipments, 42,000 bbis, first patents, \$3.40@3.80; seconds, \$3.15@3.3.15@3.3.40; fancy and export bakers. \$1.70@2.10; low grades in bags, including red dog, \$1.15@1.25. The added daily output of mills grinding today will probably aggregate 30,000 bbis, fram was steady at \$10.25.210.30 in bulk. Shorts, \$10.25, all for fine and coarse in bulk. Minneapolis Wheat Market.

New York Dry Goods Market. New York Dry Goods Market.

New York, Oct. 12.—Interest in the dry goods market runs in a very small line. Brown sheetings are in better position and there is a steady demand for most weights. Wide sheetings were unchanged. Orders for printed fabrics are moderate and well diversified. Print cloths are still quoted at 24c, with holders showing a little more confidence, and there is some talk of 24c for the regular market, at which some small sales were made. There is a small demand for knit goods and underwear, and some varieties show weakness and fregularity. Dress goods continue quiet with fall business practically over. Jobbing trade is small, but it is beginning to show a little improvement, although the whole volume of business is much less than the ordinary average.

New York, Oct. 12.—Options opened quiet and unchanged to 10 points advance: was stronger on European advices and reduction in Brazil stocks. Speculation more active: closed firm at 17 to 25 points advance: total sales, 14,000 bags, including: October, \$17,20: November, \$16,60216,60; April, \$15,30; May, \$15,50; January, \$15,95; February, \$15,70; March, \$15,50; Hamburg market closed steady at \$4,605; advance; sales, 7,000 bags, London market closed steady at \$4,605; higher: sales, 17,000 bags. STOCKS AND BONDS.

Buoyant Tone of the Market Surprised a Number of Traders. NEW YORK. Oct. 12.-While it is possibly entirely true that speculative eyes are turned upon Washington and that the dealings on the Stock exchange are largely the reflection of the hopes and fears of the traders on the silver question, there was little in the situation of affairs at the capital to account for the buoyant tone of the market, which today was a law unto itself. The governing influences were special in their nature, but the effect was pretty general and ail of the shares traded in shared to some extent in the improvement engineered by the operators in industrials, which led the market both in strength and activity, railway list was sadly neglected in morning and really played second fiddle all

day, while Whisky, Sugar, Chicago Gas, Cordage and General Electric kept to the front, just one-half of the total sales being of industrial stocks.

The operations in these fancies were said to be for the account very largely of insiders in the respective companies. Whisky was bought in on renewed reports of improved prospects of the company. Sugar on renorts from Washington based on favorable tariff legislation. Cordage on announcements that the long delayed receiver's report was about to be issued and that all the difficulties which the reorganization committee had met with had been overcome, and Lead on a report that even though a dividend might not be de clared the company had earned the money to pay it. The grangers, which were a trifle weak at the opening on the crop report, were lifted out of the depression by the bull movement in the industrials, which herped about

everything on the list except Union Pacific in the early trading.

The upward movement continued in force with occasional slight reactions, due to realization of profits, until about the middle of the afternoon, when, owing to lack of the sustaining influence of new purchases rather than to any pronounced selling, there was a fractional decline. In the late dealing there was a recovery on a light volume of business and a strong undertone was prevalent at the close, with prices from 14 to 13, per cent higher for the active list, the latte in Whisky; 1½ per cent in Missouri Pacific, 1½ per cent in Pacific Mair and Lake Shore and 1 per cent in Louisville & Nashville, Sugar and New York Central.

Some of the inactive shares made material

advances, notably Louisville, Evansville & St. Louis, Colorado Fuel and Iron, 2 per cent; Minneapolis & St. Louis and Rubber, 114 per cent: Edison Electric and Louisville, New Albany & Chicago, 114 per cent, and Missouri, Kansas & Texas preferred, 1 per cent. Phenix Mining sold up at the opening to 52, as against 50 at the last previous sale, receded to 50, rese to 59, reacted to 49 rallied to 51 and declined to 48. St. Paul & Duluth shows a decline of 24 per cent. A firm tene characterized the dealing is sterling exchange, but the business was limited. While the posted rates were un changed, actual transactions in bankers bills are about ¼ per cent stiffer, and the is fully the same advance in commerce. s fully the same advance in commercia pills, the small offerings of which is due to the hardening tendency of rates. A condi-tion of perfect ease characterizes th-monetary situation in this market, and other financial centers report similar conditions. Call loans are in better demand today and are readily made at 2 to 21% per cent. Time money is offered as low as 41% per cent for four months, 31% per cent for sixty days and four months, 3% per cent for sixty days and 6 per cent for longer periods. Commercial paper is unchanged. The steamship Columbia, which arrived from Panama yesterday, brought \$10 000 in gold and \$54,600 in silver, and \$5,148 in gold and silver mixed. The steamer from Havana brought \$17,578 in silver for this city, \$57,000 in Mexican silver in transit to London, and \$5,700 in silver in transit to Paris.

transit to Paris.

The loan committee of the clearing hous cancelled up to noon today \$1,160,000 of loan certificates and called for retirement tomor row \$980,000; total outstanding, \$12,015,000. A statement of the customs payments for the ten days past shows that the gold payments have been largely decreased, with a corresponding increase in payments in silver certificates and treasury notes. The pro-portions of payments was as follows: Gold coin, 40.1 per cent; gold certificates. 4.1 per cent; silver coin, 4 per cent; silver certifi-cates, 24.7 per cent; United States notes, 17.4 per cent; treasury notes, 9.7 per cent. The Cincinnati, Sandusky & Cleveland Railway company has declared a semi-an-nual dividend of 3 per cent, payable at the

nual dividend of 3 per cent, payable at the office of Drexel, Morgan & Co.

The earnings of the Mobile & Ohio Rail-road company for the year ending June 30 were as follows: Gross, \$3,358,470, a decrease of \$75,250 compared with the previous year; net. \$1,213,652, an increase of \$12,978.

The Post says: There is not often less of real significance in rapidly moving market. real significance in rapidly moving market than there was in tolay's. The story is

easily told. Nobody of consequence was bold enough to buy or sell, consequently the cheaper speculators bought, proposing to sell again later. The significance of the senate again later. The significance of the senate vote on the silver amendment some of the traders assumed, settled everything, but traders assumed, settled everything, but whenever the manipulators paused in their personal maneuvers business ceased on the market almost entirely. At the highest forenoon prices there was some selling and a fractional yielding in quotations. This may have come from prudent outside nolders or from the speculators themselves, possibly from both quarters. Except for Union Pacific, the advance was general through the list, but heavy only in the granger and industrial stocks. Long before the close of business the market had fallen into stagnation.

OMAHA LIVE STOCK MARKETS. Cattle Come in Large Supp y but Poor

Quality-Hogs Stin Scarce. Thursday, Oct. 12. Receipts of cattle came very near breaking the record Wednesday, and succeeded today. There were also plenty of sheep here today, but the run of hogs was disappointingly light. Receipts for the past four days foot up 20,696 cattle, 13,875 hogs and 7.054 sheep, as against 13,389 cattle, 16,383 hogs and 1,413 sheep for the same period last week, an increase of 7,000 cattle and 5,500 sheep, but a falling off of about 2,500

The official figures showed 265 cars, 6,693 head, of cattle received, which was within 91 head of the big run of October 19, 1891. the previous banner day, when 6.784 head were received. Notwithstanding the exceptionally big run, there was a comparaof the offerings being cows and feeders. As usual the dressed beef men were good, free buyers of anything that suited them and at fully steady prices. Fairish to choice to 1.674-1b. beeves sold at from \$4.10 to \$5.15, while fair to good range beeves were readily salable at from \$3 to \$3.70. Naturally, with such a heavy supply of common stuff and butchers' stock and feeders off, the market for the under grades was not very satis-factory, although taking all the circumstances into consideration the trade was reasonably active and at the close there was very little that killers could use left unsold

in the yards. The cow market feit the effect of another heavy run today, and prices suffered a fur-ther decline on all grades. The inferior quality of the offerings contributed in no small degree to the weak feeling. have declined on an average a quarter in two days. Sales today included poor to very good cows and heifers at from \$1.25 to \$2.40, with the bulk of the trading at around \$1.80 \$2.25. Calves were in very fair supply and just about steady at from \$2 to \$4. Rough stock of all kinds was hardly quotably changed, sales of common to very good bulls oxen and stags going at from \$1.40 to \$3. Business in stockers and feeders was no overly brisk but a good many cattle changed hands nevertheless. Good, smooth, fleshy stock was in very fair demand, and stillers

Hogs-Conditions were rather more favorable to the sellers today and while the mar-ket was somewhat uneven the average of prices paid was about 5c higher Wednesday. The fresh supply was again rather light as to quantity and deciaedly common as to quality. On this account more than for any other reason the shipping de-

mand was lighter than it has been for months. There are lots of snipping orders here for good hogs. Fresh meat men were wanting a fair number of hogs, however, and one packer was in the field "with his buying clothes on." As has been the case recently, but little attention was paid to weight and on the early market fair to good hogs of all weights sold at from \$6.30 to \$6.40 or about 10c higher than Wednesday. With urgent orders filled and shippers and fresh meat men out of the market, prices weak-ened badly and late trading was at from \$6.20 to \$6.30, the advance of the early mar ket being about all lost. The pens were practically cleared by the close. Sales were largely at from \$6.25 to \$6.35, as against \$6.20 to \$6.25 Wednesday and \$6.30 to \$6.35

Chicago, Oct. 12.—Today's receipts of cattle were estimated at 17,000 head, of which about 8,000 were westerns and 2,500 Texans. The receipts for the expired part of this week show an increase of nearly 13,000 head, and consequently the market was a little unsteady. Sellers did not accept materially lower prices for meritorious offerings, but on "off grades" they found it necessary to concede a point, Choice natives were in very limited supply, and in offerings of good grades there were none too many. Those descriptions therefore sold to better advantage than did other descriptions. The range of quotations for natives was from \$1.50 to \$1.85, with most of the business at from \$1.75 to \$2.25. Sales of were good buyers of all suitable grades. The common light stock, however, was neglected and hard to sell at comparatively mean fig

For washing Dishes, there's nothing like Pearline. Why don't you begin the use of it in that way, if you're one of the timid sisters who still think that Pearline "cats the clothes?" Then you can soak things in it for a

year or two, and test it in every way, until you become convinced that Pearline can't do any harm. But it won't eat your dishes, that's sure. It won't clog up the sink pipes, either, as soap does. And that cloudy effect that you've probably noticed on cut glass and china when it's washed with soap-that won't be there if you wash it with Pearline.

western rangers were generally at from \$2.40 to \$2.75 for cows and from \$2.75 to \$3.40 for steers, though lean cows were quoted around \$1.75 and choice steers as high as \$4.50. The market was weak. The exportations also showed a loss of strength.

There was more life in the hog trade and the market was again firm. Best grades of heavy hogs sold around \$6.60 and choice assorted lightweights were wanted at from \$6.75 to \$6.80. Equally high prices were paid on Wednesday of last week, but an average for today showed a good gain. Few heavyweights sold below \$6.25 and good hogs weighing 200 lbs. fetched from \$6.60 to \$6.75. Packers evinced increased interest and therefore common grades sold to better advantage than on the preceding days of the week. Decent lots were closed out in good season and the late sales were as satisfactory to sellers as were those made early in the day.

There was little show for any improvement in prices of sheep and there was none. Suppiles continue to come forward, although too readily to admit of any firmness. The general market was very weak and for the unattractive offerings prices were lower even than on Wednesday. In fact, it was next to impossible to move common stuff at any price, holders of such complaining that they could not draw out so much as a bid. The range of quotations was from \$1.50 to \$3.40 for poor to prime westerns and from \$1.25 to \$3.75 for natives. Lambs were dull and held well at from \$2.50 to \$4.90 for poor to choice. Present prices are about the lowest of the season.

Thomas Q. Seabrooke and his opera company and ballet will appear at Boyd's new theater Thursday, Friday, Saturday, Sunday and Saturday matinee, October 19, 20, 21 and 22. When the authors located "The Isle of

Champagne" in the land of Nowhere they were wise. In the production of anything in a spectacular way the scenic artist and the costumer are guided, not by fact, but by fancy, and not being tied to the mundane and appropriate the gilding and coloring to feed the eye with a feast of beauty. This has been done in the comic opera. "The Isle of Champagne," and in al! Utopia was never found a more unique region than that in which King Pommery reigns and the inhab which King Pointnery reigns and the inhabitants quench their thirst on an expensive luxury which swells the head and depletes the pocket book. Liberality stands out in every scene of the exquisitely dressed and mounted opera. "The 'tsls of Champagno" is at once a picture, a play and an opera, although the story is almost entirely told in song. Further, it is full of fun which sets gallery and out in a roar. gailery and pit in a roar.

In organizing the company of fun makers to appear in the new successful "up to date, farce-comedy surprise. "A Railroad Ticket which will be seen at the Fifteenth Street theater Sunday night and all next week Manager Will Freeman set out with the determination to secure as good talent as money could get together. That he has admirably succeeded can be seen from the list of the company he has engaged. Arthur

LONDON, Oct. 12 .- A Times Berlin telegram says: The Russian government is long its best to obviate the evils which are caused by a depression of prices. The military administration has bought two years tary administration has bought two years of grain and provisions in advance and the government is making advances to the farmers on their stores of grain. In Germany the price of barley and rye is lower, despite the fact they were formerly the chief impart from Russia.
